Being in supervision helps me to achieve that aim and maintain a good work/life balance. I have been offering supervision/ mentoring to others since 2007, after completing a training with Isobel Cosgrove and Sally Blades. The philosophy of my supervisory practice is that it is client-led. I aim to create a confidential space where acupuncturists at all stages of their working lives can discuss and reflect on their practice and be supported in seeking solutions to any issues which arise, as well as recognising their achievements.
